BVA® HYDRAULICS

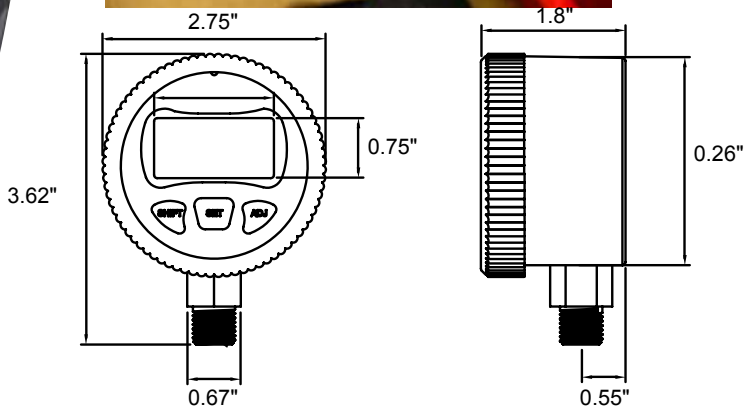

BUILT TO LAST

GE2514

DIGITAL HYDRAULIC PRESSURE GAUGE

Features:

- Back-lit display; Zero reset; displays in multiple units: psi, BAR, kg/cm^2, Mpa (user selectable)
- Temperature compensated from 14°F - 140°F (-10℃~60℃)
- High precision gauge, accuracy, % of scale: ±0.5%
- 9V DC battery included
- Peak-hold functions, provides an actual pressure read out under operation
- Polypropylene housing, can be used under lightly acid and alkali working environment
- One piece sensor unit built without welds,O-ring or silicone oil
- Working temp 14°F - 140°F (non-frozen condition)
  Storage temp -4°F -158°F (F66 non-frozen condition)
  Storage humidity 35-85%
- Pressure rating: 10,000 psi

CF3814
Gauge Adapter
BVA offers gauge adapter for easy gauge installation
